

COMPANY OVERVIEW

Accend Networks is a leading full-service IT Infrastructure and electrical company located in the San Francisco Bay Area serving all of Northern California locations and beyond. Founded by an IT Veteran C-10 electrical and C-7 low voltage licensed contractor with almost 30 years of experience. We provide high quality and low-cost solutions for all your IT and electrical needs.

DIFFERENTIATORS

- **Local Expertise & Community Engagement:** With 43+ years in the Bay Area, a first-gen college graduate, and Women in Construction member, Accend Networks brings local insight and a strong commitment to diversity.
- **Licensed Contractor:** C-10 and C-7 licensed. Works with both non-union and union electrical and A/B excavation subcontractors across Northern California for dependable infrastructure solutions.
- **Power Infrastructure:** Experts in DC plants, UPS systems, and branch panels to support mission-critical operations.
- **Full IT & Network Services:** Provides network design, cybersecurity, cloud, data center management, and unified communications.
- **Cybersecurity:** Offers strong threat assessments and proactive mitigation for high-security environments.
- **Cloud & Data Centers:** Delivers scalable, tailored strategies to support client growth and efficiency.
- **Managed IT Services:** Ensures uptime and operational continuity through proactive maintenance and support.
- **Custom Solutions:** Tailors services to meet unique client needs—no one-size-fits-all approach.

PAST PERFORMANCE

- **NAICS Codes:** 519190, 541512, 561330, 611420, 238210, 541513, 541519, 423430, 334118, 531320, 513210
- **DUNS:** 06-154-3432
- **CAGE CODE:** 6W5D2
- **UEI:** JFQPN3JX6U99
- **NIGP Codes:** 20400, 20900, 72500, 91500, 92047, 92000, 92405

CORE COMPETENCIES

- 1 **Precision Electrical Services:** Expert in new construction electrical work, including EVITP-certified installations, EV charging stations, and N+2 data center power setups.
- 2 **Infrastructure Services:** Infrastructure Services for low voltage cabling, including wiring, pulling, and termination, as well as fiber optics and copper installation and termination, encompassing underground and excavation projects.
- 2 **Network Design & Implementation:** We specialize in the design, configuration, and deployment of network systems tailored to meet specific organizational needs.
- 4 **Cybersecurity Solutions:** We provides robust cybersecurity services, including threat assessment and mitigation, to protect clients' digital assets.
- 5 **Cloud Services:** Offer cloud strategy, migration, and management solutions to optimize clients' operational efficiency and scalability.
- 6 **IT Managed Services:** Ensure IT infrastructure stability and uptime through managed services, including support and maintenance.
- 7 **Data Center Services:** Our expertise extends to designing and maintaining data centers, ensuring reliable data storage and access solutions for organizations.
- 8 **Unified Communications:** Accend Networks delivers integrated communication solutions to enhance collaboration and productivity.
